

ELECTRO GENERATOR GROUP

Electro Generator Group (EGG) is the new project of **Tony Verdi**, DJ and producer who in the 80's and 90's was the first to play techno and industrial music in Spain, and **Xavier Cabanyol**, lead singer of some bands in the same period.

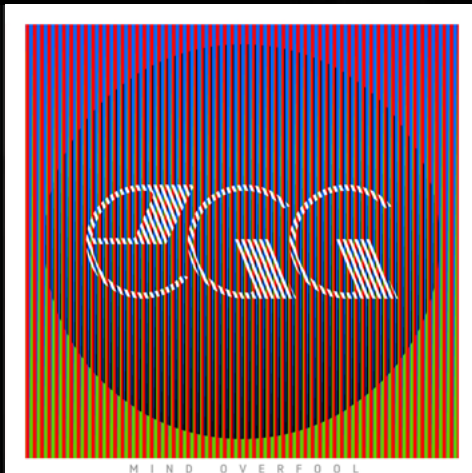

Tony and **Xavier** have created **Electro Generator Group** with the goal of return to the beginning, the essence of their first creations; but with the maturity and the experience of a very recognised career.

Mind Overfool is the first album of **EGG**; with this they get that the mind of anyone who will listen it go through forceful bass lines, hypnotic sequences and melodies full of deep feelings.

If you see the video **To Believe** you can feel immediately the essence of the **EGG**'s inspiration: Dark scenes, black and whites, stroboscopic effects which enclose a sound, variations and effects detailed produced for **Tony Verdi** and those which **Xavier Cabanyol** stamps the perfect vocal character.

EGG is a own production developed in a home studio at the Gothic area of Barcelona. The album **Mind Overfool** will be released soon.
